1

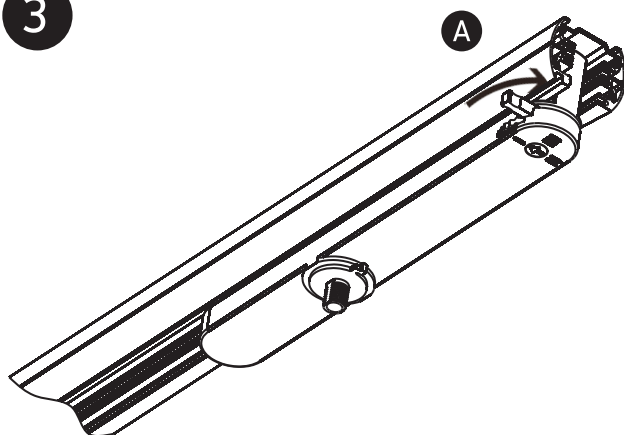

To mount the track adaptor into the track system, first check that the adaptor lock **A** is disengaged.

2

When installing the adaptor into the track, ensure that it is orientated correctly.

3

Rotate adaptor lock **A** clockwise 90° to connect the adaptor to the neutral circuit.

4

Rotate selector knob **B** to the position of desired circuit.

Warnings:

1. Make sure that the product is installed properly before connecting to electricity.
2. Do not cover the fitting.
3. Maintenance and installation should only be carried out by a professional electrician.
